

Vol. 7-03, Issue 4

**SmartStix™ I/O
Are Better than Ever!**
Now They Offer Removable
Terminals, Higher Output Rating,
Electronic Short-Circuit Protection...
and More!
*Plus, Fieldbus Can Cost Less than
\$10 (USD) per Point!*

New and Improved!

SmartStix™ I/O Have Many Enhanced Product Features!

**SmartStix with removable
terminal**

Now Available:

- ⌘ Removable terminal (optional) on all SmartStix digital I/O modules for a small additional cost. Makes field replacement fast and easy.
- ⌘ Electronic Short-Circuit Protection (ESCP) on DC Output modules...important added protection
- ⌘ DC Outputs rated 0.5A...for increased capacity
- ⌘ Positive logic (source) Outputs
- ⌘ ODVA certified...on all SmartStix DeviceNet I/O

Great Bonus (up to \$35 savings!) SmartStix Fieldbus I/O's PROFIBUS Module Includes a 9-pin, field-wired D-sub connector kit

This is a tremendous savings and advantage over other manufacturers (who don't usually include this high-quality connector). Plus, PROFIBUS network wiring connects to screw-clamp terminals...which provides wiring and termination of the network without the hassle of soldering and crimping. All in all, SmartStix Fieldbus I/O is a great value!
