

SmartStix™ I/O

You Can Expand Your OCS I/O Capacity, and
It Works with DeviceNet and PROFIBUS
Plus, it's Less than \$10 (USD) per point!

NEW!

SmartStix™ I/O--the Smart Choice to Expand Your OCS I/O Capacity!
Expands local or remote I/O capacity!

SmartStix™ I/O connects to any Operator Control Station (OCS) CsCAN network port. It's a tough, compact, DIN-rail mounted, terminal-block style I/O that provides 16 and 32 point digital I/O in a small but powerful package. It takes up so little space that it can fit easily in your main control panel or be tucked away in a more remote location. Plus, SmartStix I/O can be combined with SmartStack™ I/O to provide the best I/O selection for any OCS application.

Size: Approx. 2" H x 4.5" W (50 x 116mm) or 2" H x 7" W (50 x 177mm)

NEW!

SmartStix™ Fieldbus I/O--Works with DeviceNet™ and PROFIBUS™!
Often less than \$10 (USD) per point!

Connect to any DeviceNet™ or PROFIBUS™ network -- often less than \$10 (USD) per point. SmartStix™ Fieldbus I/O connects to a wide variety of controller and computer DeviceNet and PROFIBUS Masters. It can be used with a programmable controller, industrial computer, drive or CE-based controller. Combine it with other I/O to provide the most cost effective I/O selection.

Size: Approx. 2" H x 4.5" W (50 x 116mm) or
2" H x 7" W (50 x 177mm)

Apply SmartStix to Your Advantage!

Application Note...Use SmartStix I/O with the MiniOCS
An efficient and compact combo!

Combining a MiniOCS and SmartStix I/O has many advantages: compact size; affordable price; ideal for standalone or network applications; wide range of I/O and network options; and it's easy to setup and operate. Plus, this combo is great for a variety of applications: (packaging, material handling, pump stations, water treatment, and more)!

Coming Soon!

New Video Input Accessory for SVGA Color-Touch OCS
Ideal for still frame or full motion pictures

Brings out the "Kid-Vid" in everyone. Soon you'll be able to view full motion pictures or capture still frame images on your SVGA Color-Touch OCS. You can also freeze or zoom-in on any picture...and even frame capture to CompactFlash™. Imagine the industry presence and education you can give your OCS operators when you tell them about your product and its applications through pictures. Uses 4 NTSC/PAL inputs.
