

**NEW to OCS  
Product Line...**

**The LX Series 5.7"  
Monochrome and STN  
Color Touchscreens**

**Lowest Cost and Highest  
Performance OCS!**

**Available in June...the LX280 Monochrome is Only \$795!  
Look for the LX300 Color OCS this August!**

**Fast Scan Rate and Exceptional Performance**

LX Touchscreens are Horner APG's fastest OCS (Operator Control Station) products to date. With a 0.20mS/K typical scan rate and a large memory capacity—supporting up to 128K logic and 32K of battery-backed registers, this OCS product line offers a performance level previously unattained by competitive products in its price class (under \$1,000).

**Bright Screen Display and Compact Size, Too!**

Using STN LCD technology, LX models offer integrated, bright displays. The LX280 screen has eight shades of gray, while the LX300 supports 16 different colors. This provides much greater readability than competing low-cost blue screen and STN color LCDs. Compact, LX models measure: 7" W x 5.5" H x 2" D...the perfect low-cost solution for small panel areas.

**High-Speed CsCAN Network for I/O**

I/O connects to LX models using an onboard CsCAN port. Users also have a choice of two different I/O products for LX...SmartStix I/O (DIN-rail mounted) or SmartStack I/O (stacked on bases). Or, use both I/O

styles (over 70 I/O module types) with LX for even greater flexibility.

### **Price and Availability Date for LX Models:**

**Available June 2004:** HELX280C100 5.7" ¼ VGA STN Mono LX Operator Control Station...\$795

**Available August 2004:** HELX300C100 5.7" ¼ VGA STN Color LX Operator Control Station....\$995

### **Making Headlines... Our LX280 Model Received IAN Magazine's April 2004 "Automation Excellence Award"**

Featured prominently on the April 2004 front cover of *IAN (Instrumentation and Automation News)* magazine is Horner APG's new LX280...one of the publication's April *Automation Excellence Award* winners (plus the coverage continues on page 18).

If you don't have a hard copy handy, please go to [www.ianmag.com/scripts/currentissue.asp](http://www.ianmag.com/scripts/currentissue.asp) Then click on: "Excellence Award." Next, click on: "Recent Automation Excellence" category. This brings you to the Web page with this selection: "Monochrome Touchscreen All-In-One Controller Uses A Single Software Package (Horner Electric)." Click here and you'll find the LX280 article.

### **Call Us if You Need IEC Languages... OCS Now Supports All Five IEC-61131 Languages**

Very popular in Europe, IEC-61131 languages may be important to companies doing business overseas...whether it's an international division or export operation. Plus, the Structured Text function allows a programmer not versed in ladder logic to machine program in a "language-friendly" environment...making the task much more intuitive. Call us at **317-916-4274**, or e-mail [apgsales@heapg.com](mailto:apgsales@heapg.com) to get more information about IEC-61131 languages for OCS.
